Experience

Front End Developer

May 2022 to May 2024

Cyient — Kakinada

- Worked closely with product owners, designers and other stakeholders throughout the development process.
- Developed and maintained user-facing webpages using HTML, CSS, JavaScript.
- Ensured clean, valid HTML and CSS markup conforming to industry standards.
- Collaborated with back-end developers to integrate user interface elements into applications.
- Created custom responsive designs that optimized the website layout for various devices.

Data Quality Analyst

March 2018 to April 2022

Cyient — Hyderabad

- Defined rules and thresholds that need to be applied when evaluating the quality of incoming datasets from external sources.
- Performed root cause analysis on data quality issues, identified corrective actions and communicated results to stakeholders.
- Implemented process improvements for managing high-volume data loads into target systems.
- Worked with business users to define criteria for cleansing master data elements such as customer records or product codes.
- Developed and implemented data quality processes to ensure accuracy of information stored in databases.
- Identified discrepancies between source systems and target systems by comparing datasets using various tools.
- Provided technical support related to Data Quality initiatives including issue resolution, user training, documentation creation.
- Collaborated with IT teams on developing scripts and programs needed for automating manual tasks associated with Data Quality control processes.
- Evaluated new technologies that can be used to improve data quality assurance processes.
- Identified gaps in current Data Quality policies and processes and proposed solutions for improvement.
- Maintained a library of reference documents containing best practices for Data Quality control.
